These articles of Furniture are almost as essential in your home as it is furnished today, as flour and sugar are to the kitchen for the preparation of our food. Why shouldn't they be?

We owe it to our families to supply a bright, attractive and a comfortable home. How quick one is apt to notice and remark about a cold, bare, uncomfortable house.

The reason is not always that we do not have the money. The inclination is lacking. If we could see these things as our families and friends see them, we would not hesitate.

Never hesitate to buy the durable, the right kinds at our store. We always have them.
